Learning Activity Sheet for Mathematics Grade 1

Quarter 2: Week 1

This material is intended exclusively for the use of teachers in the implementation of the MATATAG K to 10 Curriculum. It aims to assist in delivering the curriculum content, standards, and lesson competencies.

The Intellectual Property Code of the Philippines states that “No copyright shall subsist in any work of the Government of the Philippines. However, prior approval of the government agency or office wherein the work is created shall be necessary for exploitation of such work for profit. Such agency or office may, among other things, impose as a condition the payment of royalties.”

Borrowed materials (e.g., texts, illustrations, musical notations, photos, and other copyrightable, patentable contents) included in this learning resource are owned by their respective copyright and intellectual property right holders. Where applicable, DepEd has sought permission from these owners specifically for the development and printing of this learning resource. As such, using these materials in any form other than agreed framework requires another permission and/or licensing.

No part of this material, including its original and borrowed contents, may be reproduced in any form without written permission from the Department of Education.

Every care has been taken to ensure the accuracy of the information provided in this material. For inquiries or feedback, please call the Office of the Director of the Bureau of Learning Resources via telephone numbers (02) 8634-1072 and 8631-6922 or send an email to blr.od@deped.gov.ph.

The Department of Education would like to extend its sincere appreciation and gratitude to the United States Agency for International Development and RTI International through its ABC+ Project and UNICEF for supporting and providing technical assistance in the development of the MATATAG learning resources.

Assessment 1

I. Encircle the correct answer from the given choices.

1. The length of the papaya is **(shorter than, longer than, the same as)** the length of the banana.

2. The length of the broom is **(shorter than, longer than, the same as)** the length of the umbrella.

II. Write **A or B** on the blanks.

1. The length, width, and height of Box A and Box B were measured.

- a. Which box is longer? _____
- b. Which box is narrower? _____
- c. Which box is taller? _____

2. Two glasses, a pitcher of juice, and a spoon was arranged as shown.

- a. Which glass is nearer to the pitcher? _____
- b. Which glass is farther from the spoon? _____

Assessment 2

The objects are compared based on an attribute.
Encircle the letter of the correct answer.

1) **Thickest** book

2) **Shortest** feather

3) **Nearest** to the flower vase

4) **Tallest** can

5) **Widest** base

Assessment 3

Jared wants to determine if the table can pass through the double doors without moving it. He measured the width of the table using a piece of string and then placed the string across the width of the double doors, as shown in the pictures.

1. Can the table pass through if only one of the double doors is opened? Encircle the letter of your answer.

A. Yes, because the width of the table is shorter than the width of one of the double doors.

B. No, because the width of the table is longer than the width of one of the double doors.
2. Can the table pass through if the double doors are opened? Encircle the letter of your answer.

A. Yes, because the width of the table is shorter than the width of the double doors.

B. No, because the width of the table is longer than the width of the double doors.

Assessment 4

The table shows different measurements taken using a string.

A	Length of open arms	
B	Width of a book	
C	Height of a desk	
D	Thickness of a book	
E	Distance around a tree	

Which one is it?

Write the letter(s) of the correct answer(s) in the blank.

_____ 1) longest

_____ 2) second longest

_____ 3) shortest

_____ 4) second shortest

_____ 5) shorter than the length of an open arms

_____ 6) longer than the height of the desk
